Comments on Data: * The population for this report is only persons served within the community setting (or the CSDS system).
 * The reports shown on this website contain numbers for Indiana residents who are served by the Hoosier Assurance Plan (HAP) and do not contain numbers for all Indiana residents who may receive mental health or addiction services. The HAP is the main method by which the Indiana Division of Mental Health and Addiction can fund community mental health services. As established by the Indiana Legislature, the HAP is designed to support and manage the delivery of behavioral healthcare services to individuals who are in a low income population and who have clearly identified mental health needs.
 * Age is calculated at the beginning of the fiscal year.
 * Persons with a diagnosis of only substance abuse or mental retardation are not included in these reports. Therefore, persons with a co-occurring diagnosis of mental illness and substance abuse or mental retardation are included.
 * The reports span an entire fiscal year (7/1/XXXX - 6/30/XXXX).
 * The State of Indiana does not have sufficient data to report on Supported Housing and Supported Employment.

* Hispanic: Only use the "Hispanic" row under Race if data for Hispanic as a Ethnic Origin are not available
